- Vehicle Category.....Electric quadricycle
- Warranty12 Months
- Full Charge.....From empty 6-8
hours

With its innovative design and superior engineering, the **GEM e2** battery-electric vehicle offers the most proven technology and cabin space in its class.

The open, curved styling provides a **spacious interior** and the high-level driving position and oversized windscreen gives the driver excellent all-round visibility. An optional rear-mounted Trunkback® or Stakeback® give **exceptional luggage and load space**.

Restaurant and takeaway business owners can transform the **e2** into a **versatile delivery vehicle** by adding a rear-mounted thermo-insulated box which is ideal for keeping take-out meals hot or ice creams and cold drinks cold making the **e2** the perfect vehicle for mobile vending or brand sampling.

GEM batteries are recharged via a mains power lead which plugs directly into the vehicle and any standard 230V socket. Each full charge will power the vehicle for up to 35 miles.

Urban transport that doesn't cost the earth
