New XEBRA ZAPTRUCK™

Innovation

The ZAP XEBRA is the offspring of more than three decades of thought and evolution. This car was created as a breed by itself. Because the use and purpose of electric vehicles is different than gas cars, the wheel did indeed need to be reinvented.

- Only City-Class Truck in Production
- Flatbed and Dump-truck capability
- Right & Left Side Steering Available
- Approx. 1 to 3 cents per mile
- Speeds Up to 40 MPH (64.3 km/h)
- Range Up to 25 miles (40 km) (or 40 miles -64.3 km- with extended range battery)

100% Electric

It's Electric!!

Laugh at high oil prices, in fact, forget about gas stations, oil spills, and fumes forever! A XEBRA's appetite is meager and you can recharge it at any electrical outlet.

Even after counting emissions from electric generating plants XEBRAS produce 98% fewer pollutants than gas cars.
